 - Solar and Biomass District Heating Plant in Vollerup, Sønderborg.
 - CO2 neutral Culture and Sports Center Diamanten in Fynshav.
 - Low Energy Retrofitting of Social Housing Association in Sønderborg.
 - CO2 neutral harbour area in Sønderborg

17.00 – 18.00 University of South Denmark, Alsion in Sonderborg: Presentation of Sonderborg's Project Zero and Status of Green Transformation until 2029 by Peter Rathje, CEO of Project Zero and Torben Esbensen, Danish Energy Management.

18.00 – 19.00 Dinner at Café Alsion, University of South Denmark, Sonderborg

19.00 – 21.00 Bus return to Aarhus.

08.30 – 22.00 Site visit 2 Water and waste water in Cities

08.30 Departure by bus

Focus on water and how we handle wastewater, clean water and surface water - visit to advanced waterplant in Aarhus and visit to industrial water treatment and recirculation plant at Arla - one of the world's leading dairy producers.

Visit to Grundfos Center in Bjerringbro to look at Sponge Cities and solutions to handle surface water and heavy rain and flooding.

09.00 – 10.00 Sustainable Water Management at Aarhus Water. CEO of Aarhus Water, Lars Schrøder

In Aarhus water is not in contact with humans on its way from the source (in Denmark groundwater) until it is available at the tap for the consumer; ready to drink even in a higher quality than bottled water. At the same time all wastewater is treated and seen as a resource: for energy production as well as for recovering phosphorus – a scarce resource – used as organic fertilizer used for agriculture.

10.00 – 11.00 Bus transport to Grundfos in Bjerringbro

11.00 – 15.00 Insights and dialogue at the Grundfos Center.

The afternoon programme will be held at the Grundfos Center. As an introduction, learn how Grundfos with its 19,000 employees and hereof appr. 1,600 in China, is supporting the water as well as the sustainability agenda. Morten Riis, Group Director, Grundfos.

The Danish Model on Water regulation.

During the latest decade securing water resources as well as handling wastewater has been an important aspect for the Danish Ministry of Environment & Food. Hear about the journey to secure effective regulation for water. Kim Madsbjerg, Senior Advisor, Danish Environmental Authority, Danish Ministry of Environment & Food.

Planning of Liveable Cities in Denmark and China.

Archiland has made city planning based on sustainable and liveable criterias in China as well as Denmark.

Learn about the experiences brought in from both countries. Mads Møller Jensen, CEO, Archiland.

Water solutions and Sponge City Perspectives and Experiences - from Denmark, China and globally.

Hear about water solutions and sponge city perspectives and experiences and concrete examples.

Cedric Macleod, Application Manager, Grundfos.

15.30 – 17.00

Water reuse in the food industry: Site visit at Arla Dairy.

Arla is one of the largest dairy companies in the world. See an example on water reuse.

17.00 – 21.00

Roundtable dialogue and reflections followed by dinner at Frisholt.

Frisholt is the guesthouse of Grundfos. Here there will be time for a roundtable discussion and reflections for the participants followed by wine tasting and dinner.

21.00 – 22.00

Bus transport back to Aarhus.

- 09.00 – 20.00** **Site visit 3 Climate Change Adaption and Soil Contamination**
Unfortunately not enough registered to make this visit
- 08.30 – 18.30** **Site visit 4 Health and Eldercare**
- 08.30** **Departure by bus**
- 9:00 – 10.30 DokkX Innovation in Welfare Technology
Showcase concrete technologies developed in cooperation between Aarhus Municipality, companies, citizens and health care professions
Presentation by Ivan Kjær Lauridsen, Aarhus Municipality
- 11.00 – 12.00 Guldmann & Pressalit
Safe Patient Handling Solutions
Danish solutions within early mobilization, intensive care, rehabilitation, recovery, accessible bathrooms and kitchens.
- 12.00 – 13.00 Transport to Viborg - Lunch in the bus
- 13.00 – 14.15 VIA University College
Dementia Research
What are the latest insights from dementia research? How do dementia patients, relatives and professional health care staff work together to develop better solutions? How do we use technology?
Presentation by Ms. Rikke Gregersen, VIA University College
- 14.15 – 14.30 Bus transport to Liselund
- 14.30 – 15.45 Dementia Care Center Liselund in Viborg
Care for people with the dementia at first hand
- 15.45 – 16.00 Bus transport to Banebo
- 16.00 – 17.15 Eldercare Centre Banebo
Eldercare at First Hand
Flexible and smart design, everyday rehabilitation, 24 hour eldercare, welfare technology, homeliness, security and safety, close to the city and amenities.

- 17.15 – 18.30** **Bus transport to Aarhus**
- 18.30 – 21:00** **Dinner & Networking – Hotel Radisson Blu, Aarhus**
- 08.30 – 18.30** **Site visit 5 Chronic Diseases**
- 08.30** **Departure by bus**
- 09.00 – 11.30 Visit to Steno Diabetes Centre at Aarhus University Hospital in Skejby, Aarhus
- 11.30 The group will join Site Visit 4 and go to Viborg and follow that programme. Lunch in the bus to Viborg
